A Crucible of Political Thought

The pamphlets contained within this volume are a testament to the vibrant intellectual atmosphere that pervaded the United States in the late 18th century. As the nation grappled with the question of how to govern itself, a torrent of ideas and opinions poured forth from pens across the land.

Among the most prominent contributors to this pamphleteering frenzy were Alexander Hamilton, James Madison, and John Jay, the authors of the Federalist Papers. feared that a powerful central authority would inevitably encroach upon the rights guaranteed by state constitutions.
